SKILLS

❖ .NET Core

❖ .NET

❖ C#

❖ Java

❖ SQL, PostgreSQL, OpenSQL

❖ Web Services (REST/SOAP)

❖ Redis

❖ Docker

❖ RabbitMQ, MSMQ

❖ Dapper

❖ ABAP

❖ Git

❖ Unit Testing (xUnit, Moq)

❖ Agile/Scrum

DİLARA AYYILDIZ
Software Engineer

PROFILE

Software Developer with experience in developing and supporting ERP systems in corporate environments. Skilled in backend development, business logic implementation, and system integration. Familiar with Agile workflows, clean and modular code practices, and version control tools like Git. Currently focusing on improving skills in .NET Core, microservices, and modern backend technologies.

EDUCATION

Yıldız Technical University
Mathematical Engineering
2018 – 2023

Tekirdağ Fen Lisesi
2013 – 2017

WORK EXPERIENCE

MID SOFTWARE DEVELOPER
Felece   May 2023 – current

Developed backend modules for ERP systems, primarily in finance and logistics. Designed modular business logic, handled data validation, and integrated external services via REST/SOAP APIs. Delivered scalable features in Agile teams, aligned with business goals.

JUNIOR SOFTWARE DEVELOPER
Felece   June 2022 - May 2023

Contributed to ERP module development by supporting database design, using OpenSQL, and participating in testing with unit test tools.
